

HASH TrASHMANIA

The unofficial organ of Tasmanian Hash Clubs*

Volume 2 Issue 1 - May 2003

Welcome to something not entirely new. There were a few issues of a Tasmanian Hash scandal sheet back in the days when 'cut and paste' required scissors and glue, but its compilation and distribution was slower than a Launny walker heading back from the pub.

Now we live in an age where we have something called 'technology' to spread any old crap from one end of the globe to the other - and it does. So here is some more.

NASH HASH

Commiserations to the Tassie Nash Hash 2005 bid team on being a pack of losers. The whole team put in a big effort leading up to and during Nash Hash 03, with particular kudos going to **Herr Flick** and **Chocka Block** for drinking above and beyond the call of duty (must remember to take incriminating video evidence to the Fling).

In all seriousness, the decision was a travesty and we can only hope that the NSW guys show more professionalism in organising the event than was shown during the bidding phase. The you-beaut cheap accommodation and meals package turned out to be more fleeting than a pollie's election promise. Sounds like sour grapes but it isn't. Maybe a little tart, but not sour. Flick's summary of the bidding process was pretty spot-on and there are some lessons to be learned for any future bid.

Early indications are that there'll be a bid from the Tassie NW coast clubs for NH07.

In other Nash Hash news:

- ❖ Congratulations to Harem legend **Swallow** on taking out the title of Australia's deepest throat - skolling a 1-litre grail in under six seconds with minimal spillage. Top effort that.
- ❖ Note H4 and Chardy lips - **Portholes** and **Wee Bev** proudly claimed to have walked hash for the very first time during Sunday's recovery run. Sure, they respectively completed the 21km and 16km runs on the Saturday, but on Sunday both were as energetic as the next fat bastard (which was **Grizzly**).
- ❖ Also, Chardy GM **Crusha** and Chocka's p*ss-poor efforts in the beer belching and gargling debacle deserve a quick drink.
- ❖ The travelling **Pee Wee** and **Sutt** have escaped downs having to be carried home by **Satin**, one under each arm. Satin was obviously struggling with the load, finding it hard to steer a straight course.
- ❖ Portholes, Pee Wee and **Dad** each successfully finished the Nash Hash Ballbreaker. Dopey bastards. Listed in the events program at 21km, the hare claims to have extended it to 26km.
- ❖ Herr Flick and Wee Bev know who to book their next lot of Nash Hash accommodation through. Devonport's **Fab** managed to get the NW coasters into the Midas Motel's executive apartments while Wee Flick, staying at the same place, languished in a part time storeroom
- ❖ The Launny lip can call **Spyder** up for a down down after he searched the Nash Hash venue high and low for his wallet. Spyder's patented aerodynamic forehead was awash with perspiration as the wallet contained many, many days of beer drinking's worth of cash. The wallet fell out on the couch of the aforementioned luxury apartments.
- ❖ The name of former Launny stalwart **Hophead** would be familiar to many, particularly the clean-up crew of a Bruny Island ferry run in the early eighties. Hophead made a brief appearance, paid the late rego fee then was not seen again after Friday night's festivities.

CHARDONNAY HIGHLAND FLING [Extract from the Chardonnay Golden Globe]

Highland Fling budget accommodation is about booked out. If someone wants to go they better be fast and get a deposit in! Limited Hotel rooms still available at extra cost - \$35 a single and \$70 a double. Too many Hashers are just pissing about.

See Goblet or Chocka Block, or Wee Bev who has been taking the deposits.

The sheet of options will be available at the Hash Cash's table (where it has been for the last four weeks!).

Don't forget the Highland Fling includes two official Runs and a badge, Saturday Night Hotel meal and the Highland Games. The whole weekend is a team competition.

Points will be awarded all weekend, culminating in a winning team.

The weekend could also be described as an "Adults' P*ss Fest"

All questions should be directed to Trailmaster Chocka Block
